Examination Distributed Algorithms (IN4150)

25 January 2022, 9:00-11:30 AM

Notes

1. The **end time** of this exam is **11:30 AM**.
2. **No material** is allowed except for the sheet with the list of algorithms from the course that will be handed out.
3. The **number of exercises** in this exam is 3, and the **number of pages** of this exam is 2.
4. Do give **clear, precise, and concise** answers.
5. The **maximum number of points** to be obtained for each part of each exercise is indicated between parentheses.
6. Students are strongly encouraged to first write (or at least sketch) their answers on scratch paper before writing them on the sheets they will hand in.
7. The **final grade** for the exam is computed as 12 plus the total number of points obtained for the three exercises and the paper summary divided by 10 and rounded to the nearest integer or integer+0.5.
